## 2012 The Birth of a New World Consciousness.

2012 is a very interesting time to be on the planet. We are faced with many opinions as to what is happening to the world on a global level plus the people and their attitudes. This is an introduction to many of the thoughts of Prophecy and allows you to choose what you wish to believe about the coming year. This event will include a joint presentation by Deborah and Bob discussing Prophecy, past and present, plus a channeled presentation with “We Are One” which will encourage group participation and questions. The purpose of the event will be to raise awareness of a very interesting and for some frightening time. Those in attendance will receive an informative 35 page manual including Prophecy and a channeled message from “We Are One”.

*Dates and Locations will be posted as soon as they are available.*
